## 2022 Best Suburbs to Live in Massachusetts Ranking Methodology

All of our 2022 Best Places to Live Rankings have been updated to reflect the latest data available as well as new reviews we've collected from the people living there. We've continued to refine our rankings, covering a wide range of subjects.

Our rankings and grades are calculated using a series of steps to ensure statistical rigor and useful guidance in deciding where to live. In general, the process used to calculate each ranking was as follows:

### Higher Education Rate

Percentage of residents who have received a bachelor's degree or higher.

Source: U.S. Census Weight: 15.0%

### Cost of Living Grade

Based on the consumer price index and access to affordable housing.

Source: Niche Weight: 10.0%

### Housing Grade

Based on home values, property taxes, housing costs, local schools, and more.

Source: Niche Weight: 10.0%

### Public Schools Grade

Based on the average Niche K-12 Overall Grade for every public school serving the area, where each school is weighted by the number of students it serves.

Source: Niche Weight: 10.0%
